

## Financial Systems

### PROVEN EXPERIENCE SUPPORTING AND DELIVERING MISSION CRITICAL FEDERAL SHARED SERVICES GOALS

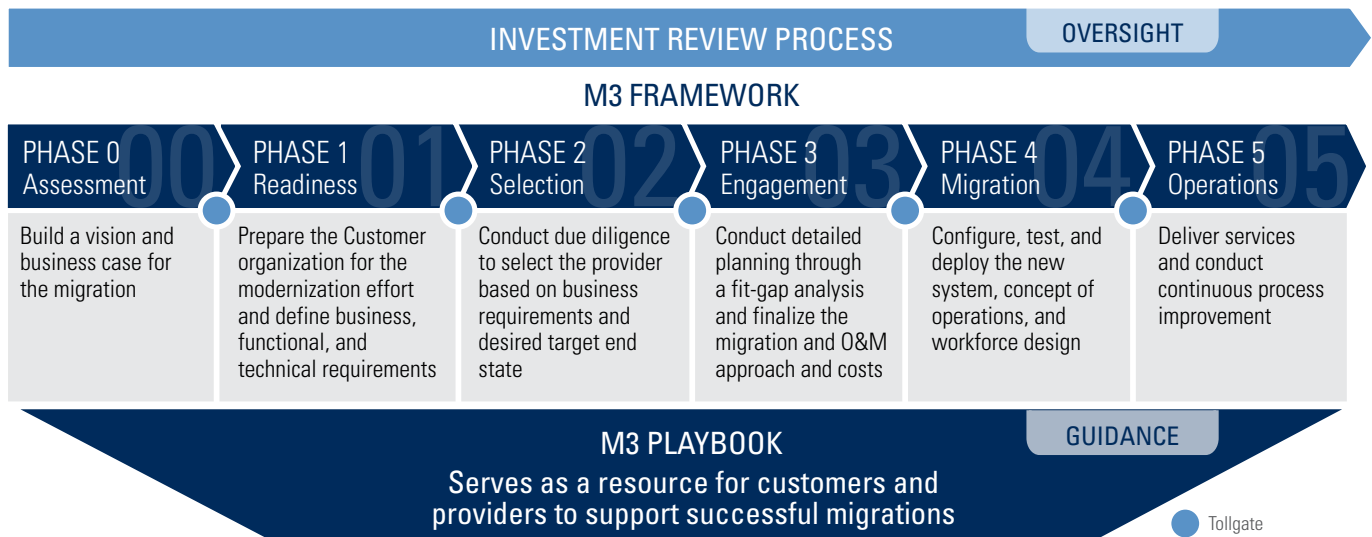

Today, Shared Services is a widely-accepted concept for achieving important governmental mission-support functions across several disciplines, including acquisition, human resources, and financial management. Government customers seeking to achieve the benefits of Shared Services need to access support contractors with a proven record of success. PotomacWave Consulting, Inc. (PotomacWave), is a highly-accomplished Woman-Owned Small Business that has been a leading contributor to on-going federal shared services provider (FSSP) migration efforts at the Department of Homeland Security (DHS) for the U.S. Coast Guard (USCG), Transportation Security Administration (TSA), and the Domestic Nuclear Detection Office (DNDO).

PotomacWave brings the following capabilities to FSSP initiatives:

- Program Management Office (PMO)
- Data Cleansing Strategy and Data Cleansing Execution
- Data Migration Strategy and Conversion Execution Support
- Organizational Change Management
- Role-based End User Training
- Business Intelligence and Data Warehouse Design and Implementation
- Oracle Federal R12 functional and technical implementation support

### KEY CONSIDERATIONS & FACTORS FOR SUCCESS

PotomacWave brings demonstrated expertise in supporting agencies migrating to FSSPs. Our corporate capabilities and methodologies align seamlessly with the General Services Administration (GSA), Unified Shared Services Management (USSM) Office, Modernization and Migration Management (M3) Playbook and processes. In addition, we have an in-depth understanding of leading FSSP migration tools, procedures, templates and project governance and management practices.

## Testimonials

---

For DNDO, we provided PMO, Functional and Technical, Data Cleansing, Data Migration, Organizational Change Management and Training Support for the Financial Acquisition and Asset Management Solution (FAAMS) Project, the first DHS FSSP migration to be deployed. A number of our FAAMS project staff received the DHS, Service Award for Superior Mission Achievement (DNDO FAAMS) for their outstanding support for the DNDO FSSP migration.

Our support for DNDO's FAAMS Project aligns with Phases 1, 2, 3, 4 and 5 of the M3 Playbook.

**“PotomacWave provided great work—thanks to your team for this progress.”**

For TSA, we provide PMO, functional and technical support for TSA's Financial System Replacement (FSR) Project. Our team is also supporting the implementation of a new OBIEE Data Warehouse solution that will leverage historical data and data feeds from the new financial system. Several of our TSA project staff received the TSA Office of Finance and Administration, Certificate of Appreciation for Outstanding Performance and Significant Contributions to the TSA Financial Systems Replacement/Modernization. Our support for TSA systems aligns with Phases 0, 1, 2, 3, 4, 5 of the M3 Playbook.

**“PotomacWave is dependable and reacts at a moment's notice; support like this isn't easy to find—thank you PotomacWave.”**

For the USCG, we supported the Data Migration Strategy for their FSSP migration (M3 Playbook Phase 1).

**“PotomacWave developed data and interface analysis methodologies and reports that exceeded the level of detail outlined in the SOW, resulting in a more thorough and complete analysis than was originally envisioned; the work reflected rigorous quality control standards.”**

Founded in 2007, PotomacWave is a highly-qualified, Woman-Owned Small Business (WOSB) professional services company supporting DoD, the Intelligence Community, DHS, FBI, and numerous civilian agencies. PotomacWave specializes in mission-critical program management support including Financial Management, Information Technology and Cybersecurity, and Intelligence Analysis and Operations.
