Financial Management Operations

Our focus on fundamentals transforms ideas into sustainable practices – measurable efficiencies reflect the value we add.

The PotomacWave Difference

PotomacWave understands that managing financial risks is a crucial element to enabling the Government to fulfil its mission. Our team of consultants apply Federal and private-sector best practices for developing a baseline of financial management capabilities, weaknesses, planned actions, and timelines to audibility for our customers to use. We offer enhanced guidance for preparing and modifying a standardized template for Financial Improvement Plans and develop and deliver training on audit readiness methodology, tailored by business community stakeholder groups.

Key Consideration & Factors for Success

PotomacWave is active throughout the financial lifecycle – from developing tools to facilitating budget formulation to creating financial statements. Our team of accountants, financial analysts, internal controls specialists, and budget experts support our clients by classifying transactions, maintaining and reconciling accounts, preparing statements, analyzing data, conducting account closeout procedures, and offering a final look at all accounts. We are experienced in using a variety of programs, can quickly adapt to our customers' procurement program of choice, and offer extensive experience developing, updating, and maintaining guidance that defines the methodology and processes for financial management and audit readiness.

Our Valued Customers

Client Sample Engagements

Defense Intelligence Agency (DIA)

PotomacWave services DIA by supporting accounting operations, Fund Balance with Treasury reconciliation, financial statements, internal controls, and audit liaison functions. Our cleared and credentialed team collaborate with DIA staff to ensure that all proprietary and budgetary data are accurate and DIA's internal control program is robust.

U.S. Army Intelligence and Security Command (INSCOM)

PotomacWave is providing expertise in PPBE and DTS to efficiently support the day-to-day financial management operations of INSCOM units across the contiguous United States, Hawaii, Korea, and Italy. PotomacWave has assisted in the successful distribution and execution of more than \$1 billion in current year funding to INSCOM subordinate units worldwide ensuring timely procurement of mission critical requirements for the Warfighter. Our staff support audits of subordinate Units which has reinforced INSCOM efforts to maintain Financial Improvement and Audit Readiness compliance. In addition, we support INSCOM in maximizing organization value and minimizing risks that relate to information.

DOJ, FBI, National Cyber Investigative Joint Task Force, Office of Threat Pursuit (OTP)

PotomacWave provides financial analysts to perform integrated financial investigative and business analysis services and expertise to the FBI's OTP, and its agency partners to support priority cyber national security and criminal investigations. Under this project, our staff has performed data visualization and link analysis relating to virtual currency investigations as well as used financial investigative tools and databases to facilitate leads and other investigative actions.

Services We Provide

- ✓ Budget Execution/Formulation
- ✓ Defense Travel System Services
- ✓ Planning, Programming, Budgeting and Execution (PPBE)
- ✓ Financial Data Management
- ✓ Virtual Currency Investigations
