PotomacWave is a Maritime Pool Awardee

The Maritime Pool encompasses all components required to formulate a total solution to a requirement, including professional and/or non-professional labor, ancillary support services, and/or products to maintain, repair, overhaul, or otherwise support manned, unmanned, or optionally manned maritime platforms CONUS and/or OCONUS. **All ASTRO Domains are applicable to the Maritime Pool: Operations, Maintenance/Readiness, Development/Systems Integration, Support, and Research and Development.** Domains may be used to provide a total solution for any organizations' maritime requirements.

ASTRO Benefits to Buyers

- Provides **flexible acquisition solutions to formulate total solutions**, including any and/or all of the following: professional and/or non-professional labor, commercial and/or non-commercial items, and ancillary support services and/or products.
- **Reduces lead time and administrative efforts** currently experienced by Departments and Agencies to acquire solutions to complex requirements through **value-based acquisitions**.
- **Allows flexibility for all contract types** at the Task Order level, including fixed-price, cost-reimbursement, time and materials (T&M), and labor-hour (LH) contracts or a hybrid of contract types.
- Facilitates acquisitions **focused on value and quality execution** with no Master Contract price list. **All pricing is established at the Task Order level**, providing maximum flexibility.
- **Provides pre-competed, FAR-compliant contracts** with a broad base of best-in-class industry partners.

How to Access ASTRO

ASTRO is convenient to use and provides a simplified acquisition process. ASTRO is available for use by the GSA FAS AAS FEDSIM organization and any Contracting Officer (CO) granted a Delegation of Procurement Authority (DPA) specifically authorized by the Master Contract ASTRO CO. To get started, COs should request a DPA. For more information on how to get started, contact ASTRO@gsa.gov.
